## FEEDBACK ACTION TAKEN REPORT 2022-23

## **ACTION TAKEN REPORT - ALUMNI FEEDBACK**

The feedback collected from the alumni indicates that the college could satisfy their aspirations and the college has the potential to excel in academic as well as non - academic matters.

In the feedback from alumni regarding the career orientation in syllabus and the adequacy of the same for gaining employment, 10.1% of the alumni claimed the college couldn't provide essential facilities to gain job and challenge the changing job market requisites. The feedback collected from alumni regarding gender neutrality in opportunities and facilities reveals that 3.2 % of the alumni claimed that the institution failed to address the issue of gender neutrality in opportunities and facilities. The response elicited from alumni indicates that the infrastructure and lab facilities are not adequate as 4% opined so.

IQAC has discussed the feedback and as per IQAC's suggestion college council has recommended the departments to start add on/Certificate courses that may meet the future needs of students. IQAC commented on the need of gender neutrality in opportunities and facilities and advised the departments to organize seminars and workshops and awareness programmes on gender neutrality and urged them to provide opportunities to all the students irrespective of gender. It further decided by the college council to give exposure to field visits and practical sessions in curriculum and gather infrastructure as per the need. IQAC decided to enrich placement cell activities for providing job opportunities to students and include more extension activities suiting the current needs.
